Dust of material can cause the following:  
- mechanical irritation

### Skin Contact

No hazard expected in normal use.

### Ingestion

No hazard expected in normal use.

## Potential Environmental Effects

See SECTION 12, Ecological Information

---

## 4. First Aid Measures

### First Aid Procedures

#### Inhalation

No specific treatment is necessary since this material is not likely to be hazardous by inhalation.

#### Eye Contact

If mechanical irritation occurs flush eyes thoroughly with a large amount of water, consult a physician if irritation persists.

#### Skin Contact

After contact with melted product cool quickly with cold water. See a physician.

#### Ingestion

Ingestion is not considered a potential route of exposure.

**Flash point** not available

**Autoignition Temperature** 454 °C  
850 °F

**Lower explosion limit** not applicable

**Upper explosion limit** not applicable

**OSHA Flammability Classification** none

### Other Flammable Properties

Use water spray to cool containers exposed to fire.

### Extinguishing Media

Use the following extinguishing media when fighting fires involving this material:

## 6. Accidental Release Measures

### Procedures

Collect material and place in a disposal container. Obey relevant local, state, provincial and federal laws and regulations.

See Material Safety Data Sheet section 8, Exposure Controls/Personal Protection.

---

## 7. Handling and Storage

### Handling

Avoid dust formation. During thermoplastic processing, vapours of the decomposition products referred to in section 10 are given off, which are technically unavoidable (Observe exposure threshold limit values). During thermal processing and/or machining local exhaust ventilation at processing machines is necessary.

### Storage

Store in a dry place.

---

## 8. Exposure Controls/Personal Protection

### Exposure Limit Information

#### ACRYLIC COPOLYMER

trade secret

No Occupational Exposure Values established (ACGIH, OSHA, Canada and Mexico).

### Engineering Controls (Ventilation)

If use operations generate dust, use adequate ventilation.

### Respiratory Protection

A respiratory protection program meeting OSHA 1910.134 and ANSI Z88.2 requirements must be followed whenever workplace conditions warrant a respirator's use.

### Eye Protection

Use safety glasses (ANSI Z87.1 or approved equivalent).

### Hand Protection

General use gloves are recommended to protect the skin from drying and irritation.

### Other Protective Equipment

A safety shower and eye wash fountain should be readily available.
